

General Guidelines for Poster Generation

36"

32"

General Comments:

*Setup PowerPoint poster size **FIRST** (32"x36")*

Clear and concise: 5 minute target –
The View From 20,000 Feet.

Minimize text: figure = 1000 words.

Major finding in center.

(Poster are read from upper left to lower right)

Maintain your column width for readability.

San Serif font, large font size preferred
do not mix fonts.

Color links sections (no color background)

Experimental procedure can be truncated.

Directly label datasets (avoid legends)

Avoid yellow or pastel data markers and lines

Bullets are superfluous

References are rarely needed.

Proofread! Proofread! Proofread! –
then get someone else to proofread.
