Important Update Information on Curriculum by Semester Sheets
For Student Engineering Fall 2011

Biomaterials Engineering:
- CEMS 215 (3) is offered in spring only. Students should take PHYS 124 (4) in semester 3 and CEMS 215 in semester 4.

- CEMS 347 & 349 are offered in fall only. Students should take CEMS 347 & 349 in semester 5 and either a humanities or technical elective in semester 6.

Ceramic Engineering:
- CEMS 215 is offered in spring only. Students should take ENGR 110 in semester 3 and CEMS 215 in semester 4.

- CEMS 347 & 349 are offered in fall only. Students should take humanities in semester 5 and take ELEC 220 in semester 6. ELEC 220 is a substitute for CEMS 221/321.

Glass Engineering Science:
- In semester 6, ELEC 220 should be taken as a substitute for CEMS 221/321.

Materials Science & Engineering:
- In semester 6, ELEC 220 should be taken as a substitute for CEMS 221/321.
